1. BASIS OF FILING

P&ED Mizoram's tariff determination is now governed by "Joint Electricity Regulatory Commission for Manipur & Mizoram (Multi Year Tariff) Regulations, 2014" (referred to as "MYT Regulations, 2014") read with First Amendment Regulations, 2019 which came into force from 09.06.2014. However, Regulation 35.1 of the MYT Regulations, 2014 provide as follows:

"The Regulations specified in this Chapter shall apply for determining the tariff for supply of electricity to a Distribution Licensee from conventional sources of generation and hydro generation stations of capacity more than 25 MW:

Provided that determination of tariff for supply of electricity to a Distribution Licensee from Renewable Energy sources of generation shall be in accordance with terms and conditions as stipulated in the relevant Regulations/Orders of the Commission."

The Mizoram Electricity Regulatory Commission in exercise of powers conferred under Section 61 read with Section 181 (2) of the Electricity Act, 2003 (36 of 2003), and all other powers enabling it in this behalf, issued Joint Electricity Regulatory Commission for Manipur & Mizoram (Terms and Conditions for Tariff determination from Renewable Energy Sources) Regulations, 2010 vide notification dated 31.05.2010. Subsequently the Regulation was amended to incorporate certain changes and notified as the Joint Electricity Regulatory Commission for Manipur & Mizoram (Terms and Conditions for Tariff Determination from Renewable Energy Sources) (First Amendment) Regulations, 2014.

Regulation 3 of the above regulations provides as follows:

"These regulations shall apply in all cases where tariff, for a generating station or a unit thereof based on renewable sources of energy, is to be determined by the Commission under Section 62 read with Section 86 of the Act.

Provided that in cases of wind, small hydro projects, biomass power, non-fossil fuel-based cogeneration projects, solar PV and solar thermal power projects, these regulations shall apply subject to the fulfillment of eligibility criteria specified in regulation 4 of these Regulations."

Further, regulation 4(2) provides that these regulations shall apply to the Small Hydro Project with installed capacity lower than or equal to defining the eligibility criteria for

applicability of the Renewable Energy sources regulations 25 MW. The extract of the regulation is reproduced below:

“Small hydro project – located at the sites approved by State Nodal Agency/ State Government using new plant and machinery, and installed power plant capacity to be lower than or equal to 25 MW at single location”.

1.1 Filing of Tariff proposal for FY 2026-27

The Power & Electricity Department, Government of Mizoram owns 12 Small Hydro Projects with installed capacity below 25 MW. Accordingly, the P&ED Mizoram has submitted the proposal for determination of tariff as per The Joint Electricity Regulatory Commission for Manipur & Mizoram (Terms and Conditions for Tariff determination from Renewable Energy Sources) Regulations, 2010 read along with First Amendments Regulations, 2014.

In this regard it is submitted that since Serlui 'B' SHP has not been commissioned till date the same has not been considered for the calculation of Capital cost, ARR & Generation Tariff thereof in accordance with The Joint Electricity Regulatory Commission for Manipur & Mizoram (Terms and Conditions for Tariff determination from Renewable Energy Sources) Regulations, 2010 read along with First Amendments Regulations, 2014.

However, Serlui 'B' SHP is generating infirm power and the same is being injected in the state grid. The rate at which the energy supplied by the SHP is to be considered while arriving at the total cost of generation has been dealt with separately in the subsequent section of this submission.

Further, it is submitted that P&ED Mizoram is not operating the **Khawiva SHP, Tuipui SHP, Teirei SHP & Kau Tlabung SHP** and these SHPs except Teirei SHP have been operated and managed by M/s Amazon Engineering Pvt. Ltd. and, Teirei SHP is operated and managed by M/s Assam Petroleum Ltd. However, P&ED Mizoram has procured the energy generated from the above SHPs and has incorporated the same in the own generation for the year.

4.1 Capital Cost

Regulation 28 of the JERC for Manipur & Mizoram (Terms and Conditions for Tariff determination from Renewable Energy Sources) Regulations, 2010 provides that the capital cost of Small Hydro Projects shall be determined as per the normative parameters defined in the regulation. The extract of the regulation is reproduced below:

- (1) The normative capital cost for small hydro projects during first year of Control Period (FY 2012-13) shall be as follows:

Sl. No.	Project Size	Capital Cost (₹ in Lakh/MW)
1	Below 5 MW	770
2	5 MW to 25 MW	700

- (2) The capital cost for subsequent years shall be determined on the basis of indexation formula as outlined under Regulation 29.

Further, regulation 29 provides the Capital Cost Indexation Mechanism. The provisions of the regulation are reproduced below:

“The following indexation mechanism shall be applicable in case of small hydro power projects for adjustments in capital cost over the Control Period with the changes in Wholesale Price Index for Steel and Electrical Machinery.

$$CC(n) = P\&M(n) * (1+F1+F2+F3)$$

$$P\&M(n) = P\&M(0) * (1+d(n))$$

$$d(n) = [a*\{(SI(n-1)/SI(0)) - 1\} + b*\{(EI(n-1)/EI(0)) - 1\}]/(a+b)$$

Small hydro Project	Base Capital Cost (₹ Lakh/MW)	Factor (1+F1+F2+F3)	P&M (0) (₹ Lakh/MW)
SHP (<5MW)	770	1.40	550
SHP (5 - 25 MW)	700	1.40	500

Where,

CC(n) = Capital Cost for nth year

P&M(n) = Plant and Machinery Cost for nth year

P&M(0) = Plant and Machinery Cost for the base year

Note. P&M(0) is to be computed by dividing the base capital cost (for the first year of the control period) by (1+F1+F2+F3) i.e.

d(n) = Capital Cost escalation factor for year (n) of Control Period

SI(n-1) = Average WPI Steel Index prevalent for calendar year (n-1) of the Control Period

SI(0) = Average WPI Steel Index prevalent for calendar year (0) at the beginning of the Control Period i.e. April, 2011 to March, 2012

EI(n-1) = Average WPI Electrical Machinery Index prevalent for calendar year (n-1) of the Control Period

EI(0) = Average WPI Electrical and Machinery Index prevalent for calendar year (0) at the beginning of the Control Period i.e. . April, 2011 to March, 2012

a = Constant to be determined by Commission from time to time, (In default it is 0.6), for weightage to Steel Index

b = Constant to be determined by Commission from time to time, (In default it is 0.4), for weightage to Electrical Machinery Index

F1 = Factor for Land and Civil Work (0.16)

F2 = Factor for Erection and Commissioning (0.10)

F3 = Factor for IDC and Financing Cost (0.14)”

Capital cost of the SHPs has been calculated in accordance with the above defined norms & mechanism. The calculation of indexed capital cost is detailed below:

Table 4.2: Indexed Capital Cost

Sl. No.	Factors	Reference Year	Value
i	d(n)	2025-26	
ii	SI(n-1)	2024-25	136.40
iii	SI(0)	2011-12	100.00
iv	EI (n-1)	2024-25	133.70
v	EI (0)	2011-12	100.00
vi	a		0.60
vii	b		0.40
viii	F1+F2+F3		0.40
ix	P&M(0)	<5MW	550.00
x	P&M(0)	5 - 25 MW	500.00

For <5 MW Category:

$$\begin{aligned}
 d(n) &= [a*\{(SI(n-1)/SI(0))-1\}+b*\{(EI(n-1)/EI(0))-1\}]/(a+b) \\
 &= [0.6\{(136.40/100.00)-1\}+0.40\{(133.70/100.00)-1\}]/(0.60+0.40) \\
 &= 0.353
 \end{aligned}$$

$$\begin{aligned}
 P\&M(n) &= P\&M(0)*\{1+d(n)\} \\
 &= 550 \{1+ 0.353 \} \\
 &= 676.60
 \end{aligned}$$

$$\begin{aligned}
 CC(n) &= P\&M(n)*(1+F1+F2+F3) \\
 &= 676.60(1+ 0.40) \\
 &= 947.24
 \end{aligned}$$

Therefore, the indexed cost of project per MW is ₹ 1041.96 Lakhs for project belongs to <5 MW project category & ₹ 947.24 for project belongs to 5 – 25 MW project category. The indexed capital cost of the 11 SHPs is calculated accordingly in the table below:
